

Colorado Christian UNIVERSITY

Policy

SMOKING

Any use or possession of tobacco products on the CCU campus, including residences, classrooms, and all administrative offices, is strictly prohibited and may result in disciplinary sanctions. CCU also reserves the right to pursue students smoking on the campus perimeter and may ask students to move away from the University altogether.

The University would also ask community members to think about what role smoking has in a Christian's life, especially in the areas of role modeling and keeping the Christians' earthly temples clean. It is the University's hope that all community members would not have smoking as a part of their lives.
